

# gs3 mp

professional grade espresso equipment,  
built for the home.

Available Configurations: MP | AV

Available Number of Groups: 1

The La Marzocco engineering group set out to take the most advanced La Marzocco technology and translate it for a home espresso machine. The GS3 features the thermal stability system used in the La Marzocco Strada, including a preheating system, digital PID controller, saturated groups, a dual-boiler system, and digital display. These features make for a luxury espresso preparation platform: everything you could hope for as someone who wants to enjoy the best-quality espresso at home. All that's left for you to do is to grind, dose, and tamp.

## Dual Boilers

## Internal Pump

## Saturated Group

## Dual PID (coffee & steam)

## Digital Display

## Water Reservoir

## Ruby Flow Restrictors

## Periscope Pressure Gauge - MP

## Half Power Mode

## Conical Valve - MP

## Insulated Boilers

## Customizable

## Specifications

## 1 group

|                                 |  |
|---------------------------------|--|
| Height (cm/in)                  | 35,5 / 14                              |
| Width (cm/in)                   | 40 / 16                                |
| Depth (cm/in)                   | 53 / 21                                |
| Weight (kg/lbs)                 | 34,5 / 76,1                            |
| Voltage                         | 220V Single Phase<br>110V Single Phase |
| Wattage (min)                   | 1620                                   |
| Wattage (max)                   | 2300                                   |
| Coffee Boiler Capacity (liters) | 1,5                                    |
| Steam Boiler Capacity (liters)  | 3,5                                    |
